Cash and cash equivalents at end of the year		<u>885</u>	<u>988</u>

The above statement of cash flows should be read in conjunction with the accompanying notes.

Asteron Retirement Savings Plan

Notes to the financial statements for the financial year ended 31 March 2018

1. Reporting entity

Asteron Retirement Savings Plan (the **Scheme**) is a defined contribution superannuation scheme. The Scheme is registered as a restricted and legacy superannuation scheme under the Financial Markets Conduct Act 2013 (**FMCA**).

The Scheme is closed to new members.

Asteron Retirement Investment Limited (**ARIL**) is the Trustee and Manager of the Scheme. ARIL has appointed Suncorp Corporate Services Pty Ltd (**SCS**) as the investment manager of the Scheme. ARIL has appointed Asteron Life Limited (**Asteron**) as the administration manager of the Scheme. ARIL, SCS and Asteron are companies within the Suncorp Group, with Suncorp Group Limited as the ultimate parent. ARIL has delegated responsibility for management oversight of the Scheme to Suncorp New Zealand's (**SNZ**) Chief Executive Officer (**CEO**). The SNZ CEO is supported to execute the responsibility by SNZ's Asset and Liability Committee (**ALCO**) and its sub-committees.

SCS has appointed Nikko Asset Management New Zealand Limited (Nikko AM NZ) as the sub-investment manager of the Scheme.

The Scheme was established by a trust deed dated 17 February 1982, and amended by deeds dated 19 August 1983, 9 July 1984, 25 October 1994, 19 October 1998 and 1 July 2003 (the **Previous Deed**). The Previous Deed was amended by substituting the provisions of the Previous Deed with all the provisions of a deed dated 25 November 2016 (the **Trust Deed**), in connection with the transition of the Scheme to the FMCA.

The registered office of the Trustee and Manager is Asteron Centre, Level 13, 55 Featherston Street, Wellington 6011, New Zealand.

2. Basis of preparation

The financial statements of the Scheme have been prepared on the historical cost basis unless the application of fair value measurements are required by the relevant accounting standards, such as the measurement of financial instruments at fair value through profit or loss.

Under NZ IAS 26 *Accounting and Reporting by Retirement Benefit Plans*, the Scheme is classified as a "Defined Contribution Plan".

These financial statements are presented in New Zealand dollars, which is the Scheme's functional and presentation currency, unless otherwise stated. All values are rounded to the nearest thousand dollars (\$'000) unless otherwise stated. The accompanying statement of net assets has been prepared using the liquidity format of presentation.

3. Statement of compliance

The financial statements are general purpose financial statements which have been prepared in accordance with New Zealand Generally Accepted Accounting Practice (**NZ GAAP**). They comply with the New Zealand equivalents to International Financial Reporting Standards (**NZ IFRS**) and other applicable Financial Reporting Standards as appropriate for a profit-oriented entity. The financial statements have been prepared in accordance with the requirements of the FMCA. They also comply with International Financial Reporting Standards (**IFRS**).

4. Significant accounting policies

(i) Financial instruments

The Scheme invests in call deposits directly and in discounted securities, equities, debt securities and fixed interest securities through unit trusts. The investments, except for call deposits, are held on behalf of the Members by and in the name of the Trustee of the Scheme, ARIL. Call deposits are held on behalf of the Members by and in the name of Suncorp Group New Zealand Limited, a member of the Suncorp Group.

Asteron Retirement Savings Plan

Notes to the financial statements (continued)
for the financial year ended 31 March 2018

4. Significant accounting policies

(a) Classification

The Scheme's financial assets and financial liabilities are categorised as:

- **Financial assets and financial liabilities held at fair value through profit or loss, which comprise:**
- *Financial instruments designated at fair value through profit or loss upon initial recognition*

Financial instruments designated at fair value through profit or loss upon initial recognition are those that are managed, and their performance evaluated, on a fair value basis in accordance with the Scheme's documented investment strategy. The Scheme's policy is for the Trustee to evaluate the information about these financial assets on a fair value basis together with other related financial information.

- **Loans and receivables / payables**

These are classified as receivables and payables.

(b) Recognition / derecognition

All purchases and sales of financial assets that require delivery of the asset within the time frame established by regulation or market convention are recognised at trade date, being the date on which the Scheme commits to buy or sell the asset. Sales of trading securities and investments that are unsettled at balance date are included in receivables, unsettled purchase transactions are included in payables.

Financial assets are de-recognised when the rights to receive future cash flows from the assets have expired, or have been transferred, and the Scheme has transferred substantially all risks and rewards of ownership.

Other financial assets and financial liabilities are recognised on the date on which they originated.

The Scheme derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

(c) Measurement

Fair value for the various types of financial assets and financial liabilities is determined as follows:

- **Financial assets and liabilities held at fair value through profit or loss**

Financial assets and liabilities held at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial assets or financial liabilities. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments held at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the statement of changes in net assets.

- *Fair value in an inactive or unquoted market*

The fair values of financial assets and liabilities that are unquoted or not traded in an active market are determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of another substantially similar instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions. Refer to note 4(xi) for details of financial assets where fair values are determined using valuation techniques.

- **Loans and receivables / payables**

Loans and receivables are measured initially at cost plus transaction costs and subsequently amortised using the effective interest rate method, less impaired losses if any. Such assets are reviewed at each balance date to determine whether there is objective evidence of impairment.

If any such indication of impairment exists, an impairment loss is recognised in the statement of changes in net assets as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate.

If in a subsequent period the amount of an impaired loss recognised on a financial asset carried at amortised cost decreases and the decrease can be linked objectively to an event occurring after the write-down, the write-down is reversed through the statement of changes in net assets.

Payables represent liabilities and accrued expenses owing by the Scheme at balance date. These are initially recognised at fair value, being the amounts payable.

Asteron Retirement Savings Plan

Notes to the financial statements (continued) for the financial year ended 31 March 2018

- (d) **Income and expenses arising from financial assets held at fair value through profit or loss**
All investment income and investment expenses recognised in the statement of changes in net assets relate to financial assets at fair value through profit or loss.
- (ii) **Changes in fair value**
Changes in fair value consists of realised and unrealised gains and losses and are recognised in the statement of changes in net assets. Realised gains and losses are derived from the sale of investments. Unrealised gains and losses are calculated from the change in fair value of investments held at balance date and the reversal of the prior year's unrealised gains and losses.
- (iii) **Liability for promised retirement benefits**
The liability for promised retirement benefits is the Scheme's present obligation to pay benefits to Members and beneficiaries and has been calculated as the difference between the carrying amounts of the assets and the carrying amounts of the liabilities as at balance date. All promised retirement benefits have been allocated or were available for allocation to Members' accounts.
- (iv) **Contributions and benefits**
Contributions are recognised when due to the Scheme. Benefits are recognised when they are due to be paid.
- (v) **Income from investments**
(a) Interest income is recognised on an accrual basis, being the effective interest income method.
(b) Distributions from unit trusts are recognised when they are due from the unit trusts.
- (vi) **Asset and liability recovery and settlement periods**
The Scheme's assets and liabilities in the statement of net assets are expected to be recovered or settled no more than twelve months after the balance date, except for the financial assets held to meet the liability for promised retirement benefits. The liabilities for promised retirement benefits are mostly expected to be settled more than twelve months after the balance date given the retirement and savings nature of the Scheme.
- (vii) **Tax**
The Scheme is a Portfolio Investment Entity (PIE). PIEs are not subject to tax at fund level and therefore the Scheme has no income tax expense or deferred tax assets or liabilities.

The PIE tax rules require that all taxable income, deductible expenses and tax credits relating to a Member's investment are allocated to individual Members based on their investment in the Scheme. Tax is charged to each Member on their share of allocated net income at their Prescribed Investor Rate (PIR) (as advised to the administration manager), adjusted for allocated tax credits. Applicable PIRs for Members are either 10.5%, 17.5% or 28%.

The Scheme allocates PIE taxable income and tax credits to Members on a daily basis. The PIE tax liability is calculated, collected and paid to Inland Revenue on a quarterly basis. Income tax liabilities for each Member are met by cancelling the required number of units in the Members' accounts.

The Trustee is responsible for payment of all PIE tax liabilities on behalf of the Members of the scheme to the Commissioner of Inland Revenue.
- (viii) **New accounting standards and interpretations not yet effective**
NZ IFRS 9 *Financial Instruments* was issued and introduces changes in the classification and measurement of financial assets and financial liabilities, impairment of financial assets and new rules for hedge accounting. This standard becomes mandatory for the Scheme's 31 March 2019 financial statements. The Scheme does not expect the standard to have a material impact on the financial statements. NZ IFRS 9 is available for early adoption but has not been applied by the Scheme in these financial statements.
- (ix) **Cash and cash equivalents and statement of cash flows**
The following are the definitions of the terms used in the statement of cash flows:
(a) Operating activities include all transactions and other events that are not investing activities. Included within operating activities is non-cash dividend income received in the form of units as opposed to cash.

Asteron Retirement Savings Plan

Notes to the financial statements (continued)
for the financial year ended 31 March 2018

- (b) Investing activities are those activities relating to the acquisition, holding and disposal of investments. Investments can include securities not falling within the definition of cash. Included within investing activities are non-cash purchases of investments relating to distributions received in the form of units as opposed to cash.
- (c) Cash is considered to be cash on hand (including related party cash receivable/payable), current accounts in banks which are net of bank overdrafts, call deposits and short term investments which are convertible to cash within two working days.
- (d) Call deposits include amounts for day to day cash management as well as amounts for investment purposes. For the purpose of the statement of cash flows these have all been treated as cash or cash equivalents.
- (e) There are no restrictions on cash or cash equivalents which would impact realisation of cash balances.
- (x) **Critical accounting estimates and judgements**
The Scheme makes estimates and judgements that affect the reported amounts of assets and liabilities within the next financial period. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.
- (xi) **Fair value hierarchy**
Financial assets that are recognised and measured at fair value are categorised by a hierarchy which identifies the most significant input used in the valuation methodology:
- Level 1 - derived from quoted prices (unadjusted) in active markets for identical financial instruments.
 - Level 2 - derived from other than quoted prices included within Level 1 that are observable for the financial instruments, either directly or indirectly.
 - Level 3 - fair value measurement is not based on observable market data.

The Scheme's investments in financial instruments are all unit trusts and are valued in accordance with Level 2 of this fair value hierarchy using unit prices determined by Nikko AM NZ in respect of the unit trust investments held.

There have been no transfers between levels of the fair value hierarchy during the financial year ended 31 March 2018 or 31 March 2017.

5. Gain on investments at fair value through profit or loss

	31 March 2018 \$000's	31 March 2017 \$000's
Designated at fair value through profit or loss		
Realised gains on Nikko AM NZ unit trusts	1,230	1,237
Unrealised gains on Nikko AM NZ unit trusts	4,280	1,301
Total	5,510	2,538

6. Members' contributions

	31 March 2018 \$000's	31 March 2017 \$000's
Regular contributions	1,580	1,693
Other contributions	-	120
Total Members' contributions	1,580	1,813

7. Benefits paid

	31 March 2018 \$000's	31 March 2017 \$000's
Death	3	61
Retirement	3,323	16,386
Surrenders	645	5,215
Partial withdrawals	937	1,179
Total benefits paid	4,908	22,841

Asteron Retirement Savings Plan

Notes to the financial statements (continued)
for the financial year ended 31 March 2018

8. Liability for promised retirement benefits

	31 March 2018 \$000's	31 March 2017 \$000's
Balance at beginning of the year	61,460	79,285
Surplus before Membership activities	6,334	3,463
Members' contributions	1,580	1,813
Benefits paid	(4,908)	(22,841)
Cancellation of Members' benefits to settle PIE tax liability	(269)	(260)
Balance at end of the year	64,197	61,460

For information on guaranteed benefits and vested benefits refer to notes 14 and 15 respectively.

9. PIE tax rebate receivable

As a PIE the Scheme is obliged to calculate, collect and pay to Inland Revenue, the PIE tax liability for each of its Members at their individual PIRs on a quarterly basis.

During the year sufficient funds to settle the PIE tax liability for each Member were realised by way of cancellation of units from the Members' investments in the Scheme.

As at 31 March 2018, PIE tax of \$9,000 is receivable by the Scheme on behalf of Members (31 March 2017: \$9,000).

10. Related parties

ARIL and Asteron are companies within the Suncorp Group, with Suncorp Group Limited as the ultimate parent. The Trustee of the Scheme is ARIL.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Scheme. This comprises the directors of ARIL, Asteron and the SNZ CEO. The Scheme has had no transactions or balances with the key management personnel during the year ended 31 March 2018 (31 March 2017: nil).

Related Party	Transaction \$000's
Asteron (Related company of Trustee and administration manager of the Scheme)	<p>Related party cash receivable \$Nil (31 March 2017: \$174)</p> <p>Related party cash payable \$375 (31 March 2017: \$nil)</p> <p>The Scheme does not have its own operating bank account, therefore the related party cash balances represents cash owed to/receivable from Asteron by the Scheme.</p>
ARIL (Trustee)	<p>Management fees \$649 (31 March 2017: \$632)</p> <p>Management and administration fee rebate \$197 (31 March 2017: \$186)</p> <p>Related party receivable \$397 (31 March 2017: \$204)</p>

Audit fees are paid by Asteron on behalf of the Scheme. The audit fee for the year ended 31 March 2018 is \$18,000 (31 March 2017: \$18,000). Registry reasonable assurance engagement fees are paid by ARIL on behalf of the Scheme. The fee of \$2,000 for the year ended 31 March 2017 engagement was paid during the year ended 31 March 2018. The 31 March 2018 engagement has not yet been undertaken.

Asteron Retirement Savings Plan

Notes to the financial statements (continued)
for the financial year ended 31 March 2018

11. Reconciliation of net movement in promised retirement benefits allocated to Members' accounts to net cash flow from operating activities

	31 March 2018	31 March 2017
	\$000's	\$000's
Net increase/(decrease) in promised retirement benefits allocated to Members' accounts	2,737	(17,825)
Less items classified as investing activities:		
Gain on investments at fair value through profit or loss	(5,510)	(2,538)
Add / (Less) movement on other working capital items :		
Decrease in interest receivable	2	9
Increase in PIE tax rebate receivable	-	(2)
Increase in related party receivable	(193)	(186)
(Decrease)/increase in sundry payables	(344)	150
Net cash outflow from operating activities	(3,308)	(20,392)

12. Risk management

As part of Suncorp Group Limited, SNZ legal entity Boards have adopted the Suncorp Group's Enterprise Risk Management Framework, policy and processes to identify and manage the exposure to key risks created by the use of financial instruments (credit risk, market price risk, interest rate risk, liquidity risk and capital management).

Underpinning all risk management activities are the following principles:

- A common language and approach to implement effective risk management across the activities of the Suncorp Group (which include the operation of the Scheme)
- Risk management activities are as sophisticated as the risks they are designed to manage
- Regular updating of the risk profiles for all material risks inherent in activities of the SNZ entities (including risks related to the operation of the Scheme)
- Use of consistent methodology and clear ownership of risks
- Use of objective measurement of risk where appropriate
- The use of indicators and other reporting mechanisms to analyse risk

Risk management roles and responsibilities

The Boards of the relevant legal entities comprising SNZ are responsible for overseeing the processes used to identify, evaluate and manage the exposure to risks.

SNZ's Senior Leadership team is accountable for implementing and assessing the effectiveness of the processes used to identify, evaluate and manage risks.

SNZ's Senior Leadership team is supported by the SNZ Chief Risk Office which provides guidance and advice on risk, compliance, governance and regulatory matters.

Suncorp Group's internal audit function is responsible for providing independent, objective assurance to management and boards that risk practices and internal controls are functioning as intended.

Financial risk management

The Scheme's activities expose it to a variety of financial risks and those activities involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risks. Taking risk is core to the financial business and the operational risks are an inevitable consequence of being in business. The Scheme's aim is therefore to achieve an appropriate balance between risk and return and minimise potential adverse effects on the Scheme's financial performance.

The Scheme's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems. The Scheme regularly reviews its risk management policies and systems to reflect changes in markets, products and emerging best practice. The Scheme does not apply a look through approach when assessing risk.

Asteron Retirement Savings Plan

Notes to the financial statements (continued) for the financial year ended 31 March 2018

(i) **Credit risk**

Credit risk is the risk that a counterparty to a financial instrument will cause a financial loss for the Scheme by failing to discharge an obligation.

Financial instruments which potentially subject the Scheme to credit risk consist of cash, receivables and unit trust investments.

Contracts have been entered into with various counterparties, who have appropriate credit ratings, in accordance with the tactical and strategic limits laid down in policies reviewed by the Trustee. The Scheme does not require collateral or other security. The Scheme is subject to credit losses in the event of non-performance by the counterparties to all financial instruments, however losses are not expected to occur.

The maximum exposure to credit risk of the Scheme's financial instruments at both 31 March 2018 and 31 March 2017 is equal to their carrying amount.

(ii) **Concentration of credit risk**

The Scheme places its investments with a large range of corporate and financial institutions. Investment strategies are carefully balanced so that there is no significant concentration of credit risk in any one financial institution.

The following table gives credit exposures by financial asset category:

	31 March 2018 \$000's	31 March 2017 \$000's
Cash and cash equivalents	1,260	814
Related party cash receivable	-	174
Interest receivable	2	4
Investment receivable	34	92
Related party receivable	397	204
	1,693	1,288

The Scheme is indirectly exposed to credit risk by investing in unit trusts which invest in a range of underlying securities. The following table gives the breakdown of investments in Nikko AM NZ unit trusts by financial asset category:

	31 March 2018 \$000's	31 March 2017 \$000's
Nikko AM Global Equity Unhedged Fund	16,528	15,983
Nikko AM Wholesale Core Equity Fund	15,555	14,143
Nikko AM Wholesale NZ Cash Fund	10,176	10,339
Nikko AM Wholesale NZ Bond Fund	9,206	8,827
Nikko AM Global Equity Hedged Fund	3,828	3,784
Nikko AM Wholesale Property Fund	3,311	3,332
Nikko AM Wholesale Option Fund	2,428	2,233
Nikko AM Wholesale Global Bond Fund	1,992	2,020
	63,024	60,661

The Scheme's investments which exceed 5% of the net assets are:

	%	31 March 2018 \$000's	%	31 March 2017 \$000's
Nikko AM Global Equity Unhedged Fund	26%	16,528	26%	15,983
Nikko AM Wholesale Core Equity Fund	24%	15,555	23%	14,143
Nikko AM Wholesale NZ Cash Fund	16%	10,176	17%	10,339
Nikko AM Wholesale NZ Bond Fund	14%	9,206	14%	8,827
Nikko AM Global Equity Hedged Fund	6%	3,828	6%	3,784
Nikko AM Wholesale Property Fund	5%	3,311	5%	3,332

Asteron Retirement Savings Plan

Notes to the financial statements (continued)
for the financial year ended 31 March 2018

(iii) **Market risk**

Market risk is the risk that the fair value of the Scheme's investment portfolio will fluctuate as a result of changes in market prices. This risk is managed by ensuring that all activities are transacted within mandates, overall investment strategy and within approved limits.

Market price risk sensitivity

If the prices of the unit trust investments held by the Scheme at balance date had moved by 5% with all other variables held constant, the impact in the statement of changes in net assets would have been as follows:

	31 March 2018	31 March 2017
	\$000's	\$000's
5% increase in prices of unit trust investments	3,151	3,033
5% decrease in prices of unit trust investments	(3,151)	(3,033)

(a) **Currency risk**

Currency risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to a change in foreign exchange rates. Movements in the New Zealand dollar may affect both the cash flows and market values of investments denominated in foreign currencies.

The Scheme is indirectly exposed to currency risk through the unit trusts it invests in as some of the unit trusts hold investments denominated in foreign currencies. There is no direct exposure to currency risk for the Scheme. The Scheme places reliance on the tactical and strategic limits in the investment policies in place for the Scheme for the management of the currency risk in respect of these financial instruments.

(b) **Interest rate risk**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of change in market interest rates.

The Scheme is indirectly exposed to interest rate risk through the unit trusts it invest in as these are revalued at market value on a continuous basis. There is no direct exposure to interest rate risk for the Scheme. The Scheme places reliance on the tactical and strategic limits in the investment policies in place for the Scheme for the management of the interest rate risk in respect of these financial instruments.

(iv) **Liquidity risk**

Liquidity risk is the risk that the Scheme is unable to meet its payment obligations associated with its financial liabilities when they fall due. The consequence may be the failure to meet obligations to repay Members and creditors. Where there is a timing difference between the Scheme's cash flow commitments and the receipts of funds, the Trustee has the right to realise investments in order to permit withdrawals from the Scheme.

If by reason of exceptional circumstances the Trustee in good faith forms the opinion that it is impractical or would be materially prejudicial to the interest of the Members for the Trustee to realise investments in order to permit withdrawals from the Scheme, then the Trustee may give a written notice of withdrawal suspension to any Member who gives or has given Notice of Withdrawal. Such a notice has the effect of suspending the operation of all withdrawal notices until such time as the Trustee withdraws this notice. In terms of managing the liquidity risk, the Trustee acts on the direction of the administration manager in respect of all payments made by the Scheme.

All of the Scheme's financial liabilities have a maturity of less than 30 days.

(v) **Capital risk management**

The Scheme's objectives when managing capital are to provide returns for Members through capital growth and income. The Scheme does this by investing in a diversified portfolio of financial assets.

The Scheme undertakes to invest the contributions and accumulation value of the Members in investments that meet the Scheme's objectives while maintaining sufficient liquidity to meet Member withdrawals.

Asteron Retirement Savings Plan

Notes to the financial statements (continued)
for the financial year ended 31 March 2018

13. Contingent liabilities and capital commitments

There were no contingent liabilities or capital commitments as at 31 March 2018 (31 March 2017: nil).

14. Guaranteed benefits

No guarantees have been made in respect of any part of the liability for promised retirement benefits (31 March 2017: nil).

15. Vested benefits

Vested benefits equate to the total promised retirement benefits in the Scheme as at balance date. Under the conditions of the Scheme, vested benefits are not conditional on continued Membership.

16. Funding arrangement

Each Member contributes on the basis specified in their application form or as agreed thereafter with the Trustee. There are no mandatory contributions or restrictions.

17. Unit prices of investment funds comprising the Scheme

Unit prices of the investment funds comprising the Scheme at the beginning and end of the year were:

	31 March 2018	31 March 2017
	Redemption Price	Redemption Price
	\$	\$
Deposit	11.155	10.917
NZ Fixed Interest	3.343	3.196
International Fixed Interest	3.459	3.400
NZ Equity	4.980	4.086
International Equity	3.109	2.815
NZ Property	5.000	4.697
Managed Conservative	3.271	3.054
Managed Neutral	3.558	3.253
Managed Growth	3.714	3.320

18. Events occurring after balance date

There is no matter or circumstance that has arisen since the end of the financial year that has significantly affected, or may significantly affect the Scheme's operations, the results of those operations, or the Scheme's state of affairs as at 31 March 2018.

Independent Auditor's Report

To the Trustee and members of Asteron Retirement Savings Plan

Report on the financial statements

Opinion

In our opinion, the accompanying financial statements of Asteron Retirement Savings Plan (the "Scheme") on pages 1 to 12:

- i. present fairly in all material respects the Scheme's financial position as at 31 March 2018 and its financial performance and cash flows for the year ended on that date; and
- ii. comply with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards.

We have audited the accompanying financial statements which comprise:

- the statement of net assets as at 31 March 2018;
- the statements of changes in net assets and cash flows for the year then ended; and
- notes, including a summary of significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) ('ISAs (NZ)'). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Scheme in accordance with Professional and Ethical Standard 1 (Revised) Code of Ethics for Assurance Practitioners issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our responsibilities under ISAs (NZ) are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

Our firm has also provided other services to the Scheme in relation to our reasonable assurance engagement over the registry of the Scheme. Subject to certain restrictions, partners and employees of our firm may also deal with the Scheme on normal terms within the ordinary course of trading activities of the business of the Scheme. These matters have not impaired our independence as auditor of the Scheme. The firm has no other relationship with, or interest in, the Scheme.

Other information

The Trustees, on behalf of the Scheme, are responsible for the other information included in the Scheme's Annual Report. Other information includes the disclosures relating to details of the Scheme and its participants, corporate governance and other statutory information. Our opinion on the financial statements does not cover any other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Use of this independent auditor's report

This independent auditor's report is made solely to the Trustee and members as a body. Our audit work has been undertaken so that we might state to the members those matters we are required to state to them in the independent auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the members as a body for our audit work, this independent auditor's report, or any of the opinions we have formed.

Responsibilities of the Trustees for the financial statements

The Trustees, on behalf of the Scheme, are responsible for:

- the preparation and fair presentation of the financial statements in accordance with generally accepted accounting practice in New Zealand (being New Zealand Equivalents to International Financial Reporting Standards) and International Financial Reporting Standards;
- implementing necessary internal control to enable the preparation of a set of financial statements that is fairly presented and free from material misstatement, whether due to fraud or error; and
- assessing the ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objective is:

- to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and
- to issue an independent auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs NZ will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of these financial statements is located at the External Reporting Board (XRB) website at:

<http://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-6/>

This description forms part of our independent auditor's report.

The engagement partner on the audit resulting in this independent auditor's report is Paul Herrod.
